

# Systems Programming

Website Monitoring – Coursework 1A

Author: HAN KE

Student ID: 2431345K

## Solution

The solution has been developed on personal machine (Ubuntu 18) and I have tested on University's environment, it compiled successfully and seems to work with no memory leaks.

## Bugs

It seems that no bug appeared during the compilation and running.

## Limitations

It seems that no significant limitation of this solution.

## Originality

This is my own work as defined in the Academic Ethics agreement I have signed.
